The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are determined by the laws of the theory of the structure of the atom. This is a circular argument, but it is the only way to proceed. The second part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. the following: (1) the physician should be able to recognize the signs and symptoms of the disease; (2) the physician should be able to make a correct diagnosis; (3) the physician should be able to make a correct prognosis; (4) the physician should be able to make a correct treatment; (5) the physician should be able to make a correct follow-up.

The first of these is the most important, for if the physician cannot recognize the signs and symptoms of the disease, he cannot make a correct diagnosis, and if he cannot make a correct diagnosis, he cannot make a correct prognosis or a correct treatment.

The second of these is also very important, for if the physician cannot make a correct diagnosis, he cannot make a correct prognosis or a correct treatment. The third of these is also very important, for if the physician cannot make a correct prognosis, he cannot make a correct treatment.

The fourth of these is also very important, for if the physician cannot make a correct treatment, he cannot make a correct follow-up. The fifth of these is also very important, for if the physician cannot make a correct follow-up, he cannot make a correct treatment.

The sixth of these is also very important, for if the physician cannot make a correct follow-up, he cannot make a correct treatment. The seventh of these is also very important, for if the physician cannot make a correct treatment, he cannot make a correct follow-up.

The eighth of these is also very important, for if the physician cannot make a correct follow-up, he cannot make a correct treatment. The ninth of these is also very important, for if the physician cannot make a correct treatment, he cannot make a correct follow-up.

The tenth of these is also very important, for if the physician cannot make a correct follow-up, he cannot make a correct treatment. The eleventh of these is also very important, for if the physician cannot make a correct treatment, he cannot make a correct follow-up.

The twelfth of these is also very important, for if the physician cannot make a correct follow-up, he cannot make a correct treatment. The thirteenth of these is also very important, for if the physician cannot make a correct treatment, he cannot make a correct follow-up.
